Australian Financial Attitudes and Behaviour Tracker

Wave 2: September 2014 – February 2015
Introduction
Background

Financial decisions are a part of everyday life – whether looking for ways to save, deciding which credit card represents the best value, choosing a home loan, comparing insurance policies or planning for retirement. Whatever the decision, being confident and informed can make a difference to your financial wellbeing and peace of mind.

Helping Australians gain the knowledge, skills, attitudes and behaviours needed to make sound financial decisions is a key priority of the Australian Securities and Investments Commission (ASIC). As Australia’s corporate, markets and financial services regulator, ASIC is the Australian Government agency responsible for leading and coordinating the National Financial Literacy Strategy and delivering ASIC’s MoneySmart website.

Financial decision-making is complex and contextual. Prior research undertaken suggests that a wide range of shifting factors can have an impact on decisions and outcomes.

In 2014 ASIC launched the Australian Financial Attitudes and Behaviour Tracker (the Tracker) to track a number of financial attitudes and behaviours among adult Australians and inform financial literacy programs and initiatives.

ASIC engaged EY Sweeney to conduct the Tracker in 2014/15. Wave 1 of the research, released in December 2014, covered the six month period from March to August 2014. Wave 2 covers the period from September 2014 to February 2015. This report contains the findings for Wave 2 of the Tracker and compares these with Wave 1 findings.

The Tracker will be repeated at regular intervals. It will supplement other research in the field, including the well-established ANZ Survey of Adult Financial Literacy in Australia, which is conducted approximately every three years and continues to be the leading reference point for measuring population-wide financial literacy levels in Australia.
Research aims and objectives

Purpose

- Track changes and trends in some key financial attitudes and behaviours at regular intervals to build up a picture of changes over time
- Inform and support ASIC’s efforts to promote investor and financial consumer trust and confidence
- Inform broader research, measurement and evaluation of Australians’ financial literacy levels and wellbeing

Research framework

This research is framed around the five indicative behaviours of financial literacy identified in the 2011 ANZ Survey of Adult Financial Literacy in Australia and the National Financial Literacy Strategy 2014-17 and shown below. In addition, it explores a number of attitudinal measures.

- **Keeping track of finances** – approaches to managing everyday expenses
- **Planning ahead** – planning for the medium and longer term, including retirement and beyond
- **Choosing financial products** – shopping around and understanding and assessing investment risk
- **Staying informed** – use of information, tools and guidance when needed
- **Financial control** – savings behaviour and managing debts
# Methodology

## Overview of methodology

| Respondents | • Respondents sourced from Research Now online panel  
|             | • Aged 18+ years  
|             | • Do not work in market research  
|             | • Sample quotas were set for age, gender and location of main residence |

### Survey

**Wave 1:**
- Fieldwork was conducted between 13-28 August 2014
- Average survey length of 16.3 minutes

**Wave 2:**
- Fieldwork was conducted between 4-24 February 2015
- Average survey length of 15 minutes
- All survey results are based on self-reported attitudes and behaviour
- Participants were able to provide multiple responses to some questions; therefore, some response categories sum to more than 100%

### Analysis and Reporting

- Data analysed, tabulated and significance tested using Q Research Software
- Data was weighted to be representative of the Australian Bureau of Statistics (ABS) profile of the Australian population aged 18+ years
- Analysis has been undertaken as follows:
  - Current Wave (Wave 2): total level (Behaviour: key findings), attitudes and demographic sub-groups (Demographics)
  - Comparison of Waves 1 and 2: total level (Behaviour: key findings), demographic sub-groups (Demographics)

#### Demographic sub-groups:

- For the current Wave, demographic sub-group analysis has been conducted for the following target groups:
  - Age  
  - Gender  
  - Personal income (annual)  
  - Household income (annual)  
  - Household composition

- For comparisons between Waves (Wave 1 compared to Wave 2), demographic sub-group analysis has been conducted for the following target groups:
  - Age  
  - Gender  
  - Personal income (annual)  
  - Household income (annual)  
  - Household composition  
  - Home ownership status  
  - Work status  
  - Employment status
Analysis and Reporting (cont’d)

Attitudes:
- Attitudinal analysis has been conducted for the 11 attitudinal statements in the survey for those who agreed (selected agree or strongly agree) or disagreed (selected disagree or strongly disagree) with each statement
- In this report, comparisons between Wave 1 and Wave 2 have been confined to those results that are statistically significant at a 95% confidence interval

Statistical reliability

<table>
<thead>
<tr>
<th>Wave</th>
<th>Sample size</th>
<th>Maximum margin of error (95% confidence interval)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Wave 1 (March to August 2014)</td>
<td>n=1,379 (total sample)</td>
<td>± 2.6%</td>
</tr>
<tr>
<td>Wave 2 (September 2014 to February 2015)</td>
<td>n=1,357 (total sample)</td>
<td>± 2.7%</td>
</tr>
</tbody>
</table>

Wave 2: Total sample size of n=1,357 has a maximum margin of error of ±2.7% at the 95% level of confidence. This means we can be 95% confident that survey estimates will be reflective of the real world to within ±2.7%.

Economic and consumer context

To give context for the *Australian Financial Attitudes and Behaviour Tracker*, the following are some of the key macro-economic trends in Australia during the reporting period for Wave 2 of the research (September 2014 to February 2015). Decreasing fuel prices, a drop in the Reserve Bank cash rate and a strengthening of the Australian share market positively impacted consumer sentiment during this period, though sentiment remained cautious overall.

| Cash rate¹ | The official RBA target cash rate dropped from 2.5% to 2.25% during the reporting period (September 2014 to February 2015). The change in cash rate was effective from 4 February 2015.  
| Australian dollar² | There was a steady decline in the value of the Australian dollar over this period – down from 93 US cents on 1 September 2014 to 78 US cents on 27 February 2015.  
| Unemployment rate³ | Seasonally adjusted unemployment increased slightly over the period to 6.2% – a 0.2% increase from Wave 1 of the research (March to August 2014).  
| GDP⁴ | GDP increased by 0.4% in the three months to December 2014; in seasonally adjusted terms this was an overall increase of 0.5%. Over the same period, gross value added per hour worked in the market sector rose 0.1%.  
| CPI⁵ | The consumer price index rose by 0.2% in the March 2015 quarter, which was the same as the increase of 0.2% in the December 2014 quarter.  
| Consumer confidence⁶ | Consumer confidence was modest but stable throughout the reporting period ranging from 112.5 points in September 2014 to 111.2 points in February 2015, with an average of 112.6 points across the period.  
| Consumer sentiment⁷ | Consumer sentiment fluctuated across the period with a maximum of 100.7 points achieved in February 2015, while a minimum of 91.1 points occurred in December 2014.  
| ASX200⁸ | The S&P/ASX 200 price index rose from 5625.9 in September 2014 to 5928.8 in February 2015 during the reporting period. There were a number of shifts throughout the period, with troughs in October and December 2014. However, fairly consistent growth occurred during the start of 2015 with a sizeable upward shift throughout January and early February.

Key findings
Financial attitudes

A range of factors are associated with particular attitudes and behaviours, including life stage, household composition, retirement and income.

Current (Wave 2)

<table>
<thead>
<tr>
<th>Behaviour: key findings</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Three in five (58%) surveyed Australians indicated that they agreed with the statement 'I am confident when it comes to managing my money'.</td>
</tr>
<tr>
<td>• Three in five (58%) stated they disagreed or were ambivalent towards the statement 'Dealing with money is interesting'.</td>
</tr>
<tr>
<td>• More than half (55%) reported that they agreed with the statement 'I spend a lot of time thinking about financial information before making a decision'.</td>
</tr>
<tr>
<td>• Almost half (49%) said they agreed with the statement 'I try to stay informed about money matters and finance'.</td>
</tr>
<tr>
<td>• Three in ten (31%) said that they agreed with the statement 'Dealing with money is stressful and overwhelming'.</td>
</tr>
<tr>
<td>• One in five (20%) said that they agreed with the statement 'Nothing I do will make much difference to my financial situation'.</td>
</tr>
<tr>
<td>• One in six (16%) said that they agreed with the statement 'I have difficulty understanding financial matters'.</td>
</tr>
</tbody>
</table>

Demographics

<table>
<thead>
<tr>
<th>Gender:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Males (46%) were more likely than females (38%) to have reported they agreed with the statement 'Dealing with money is interesting'.</td>
</tr>
<tr>
<td>• Females were more likely than males to have reported they agreed with the statements 'Dealing with money is stressful and overwhelming' (35% compared to 27%), and 'I often buy things on impulse' (35% compared to 24%).</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Age:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Those under 35 years were more likely than those 55 years or older to have indicated they agreed with the statements 'Dealing with money is stressful and overwhelming' (39% compared to 21%), 'I often buy things on impulse' (36% compared to 20%), 'Financially I like to live for today' (20% compared to 11%), 'I have difficulty understanding financial matters' (21% compared to 11%), and 'I am too busy to sort out my finances at the moment' (16% compared to 4%).</td>
</tr>
<tr>
<td>• People 55 years or older were more likely than those under 55 years to have indicated they agreed with the statement 'I am confident when it comes to managing my money' (69% compared to 54%), and 'I try to stay informed about money matters and finance (60% compared to 44%).</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Personal income:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• People with a personal income of less than $50,000 per annum were more likely to have said they agreed with the statement 'Nothing I do will make much difference to my financial situation' than those with a personal income of $50,000 or more per annum (26% compared to 17%).</td>
</tr>
</tbody>
</table>
### Demographics (cont'd)

- People with a **personal income of $50,000 or more per annum** were more likely than those with a personal income of less than $50,000 per annum to have indicated they agreed with the statement ‘I try to stay informed about money matters and finance’ (57% compared to 44%), ‘Dealing with money is interesting’ (49% compared to 39%), ‘My friends and family often come to me for advice about financial decisions’ (25% compared to 15%), and ‘I am too busy to sort out my finances at the moment’ (15% compared to 9%).

### Household composition

- **Couples with children at home** (55%) and **couples with no children at home** (53%) were more likely to have indicated they agreed with the statement ‘I try to stay informed about money matters and finance’ than singles living at home with their parents (34%) and singles living in shared accommodation with other adults (30%).

### Comparison of Waves 1 and 2

#### Behaviour: key findings

- The proportion of surveyed Australians who agreed with each attitudinal statement was **relatively consistent** across Waves 1 and 2.
- Close to three in five (58% Wave 2 and Wave 1) surveyed Australians indicated that they agreed with the statement ‘I am confident when it comes to managing my money’. More than half (55% Wave 2, 57% Wave 1) reported that they agreed with the statement ‘I spend a lot of time thinking about financial information before making a decision’.
- Almost half (49% Wave 2 and Wave 1) said they agreed with the statement ‘I try to stay informed about money matters and finance’.
- Over two in five (42% Wave 2, 43% Wave 1) indicated that they agreed with the statement ‘Dealing with money is interesting’.
- Around three in ten (31% Wave 2, 30% Wave 1) agreed with the statements ‘Dealing with money is stressful and overwhelming’, and ‘I often buy things on impulse’ (29% Wave 1, 29% Wave 2).

#### Demographics

- **Females** were less likely to have indicated they agreed with the statement ‘I have difficulty understanding financial matters’ in Wave 2 (16%) than in Wave 1 (22%). Single females were less likely to have said they agreed with the statement ‘Financially, I like to live for today and not think too much about tomorrow’ in Wave 2 (15%) than in Wave 1 (23%), and the statement ‘I have difficulty understanding financial matters’ in Wave 2 (18%) than in Wave 1 (29%).

- **Age:**
  - Those **under 35 years** were less likely to have reported they agreed with the statement ‘I have difficulty understanding financial matters’ in Wave 2 (21%) than in Wave 1 (29%), and the statement ‘I am too busy to sort out my finances at the moment’ in Wave 2 (16%) than in Wave 1 (22%).
### Employment status:
- **Non-retirees** were less likely to have said they agreed with the statement ‘Nothing I do will make much difference to my financial situation’ in Wave 2 (18%) than in Wave 1 (22%).
- **Non-employed persons** were less likely to have indicated they agreed with the statement ‘I am too busy to sort out my finances at the moment’ in Wave 2 (6%) than in Wave 1 (10%).

### Location:
- Those **living in major capital cities** (i.e. Sydney, Melbourne, Brisbane, Adelaide or Perth) were less likely to have said they agreed with the statement ‘I try to stay informed about money matters and finance’ in Wave 2 (48%) than in Wave 1 (54%).
- Those **living in regional areas and cities other than capital cities** were more likely to have said they agreed with the statement ‘My friends and family often come to me for advice about financial decisions’ in Wave 2 (17%) than in Wave 1 (12%). They were also less likely to have said they agreed with the statement ‘Financially, I like to live for today and not think too much about tomorrow’ in Wave 2 (14%) than in Wave 1 (20%), and the statement ‘I am too busy to sort out my finances at the moment’ in Wave 2 (7%) than in Wave 1 (13%).
## Keeping track of finances

Most Australians are keeping track of their finances in some way.

### Current (Wave 2)

<table>
<thead>
<tr>
<th>Behaviour: key findings</th>
<th>Budgeting:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• More than three quarters (77%) of surveyed Australians reported they <strong>had a budget</strong> in the last six months</td>
</tr>
<tr>
<td></td>
<td>• The majority of those surveyed said they <strong>mostly</strong> (50%) or <strong>always</strong> (17%) stuck to their budget over the last six months, while 10% said they <strong>did not</strong> stick to it.</td>
</tr>
</tbody>
</table>

**Keeping track of money:**

• Over nine in ten (93%) surveyed Australians stated that they **kept track of their money in some way** over the last six months.

### Comparison of Waves 1 and 2

<table>
<thead>
<tr>
<th>Behaviour: key findings</th>
<th>Budgeting:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• The proportion of surveyed Australians who reported they <strong>had a budget</strong> in the last six months, increased in Wave 2 (77%) from Wave 1 (73%).</td>
</tr>
<tr>
<td></td>
<td>• The proportion who reported they had a budget and <strong>mostly</strong> stuck to it over the last six months, increased in Wave 2 (50%) from Wave 1 (44%).</td>
</tr>
</tbody>
</table>

**Keeping track of money:**

• The proportion of surveyed Australians who stated that they **kept track of their money in some way** over the last six months was similar in Wave 2 (93%) and Wave 1 (90%).

• Consistent across both periods, the tracking methods most commonly reported were **checking bank statements for unusual/suspicious entries** (63% Wave 2, 59% Wave 1), **checking credit card statements for unusual/suspicious entries** (49% Wave 2, 47% Wave 1), and **keeping receipts** (42% Wave 2, 39% Wave 1).

• The proportion who reported they had **used a household budget/spreadsheet** over the last six months increased in Wave 2 (25%) from Wave 1 (20%).
### Demographics (cont’d)

#### Budgeting:
- The following sub-groups were more likely to report that they **had a budget** in the last six months in Wave 2 compared to Wave 1:
  - Females (78% Wave 2, 72% Wave 1)
  - Those under 35 years (80% Wave 2, 75% Wave 1)
  - Those with a personal income of less than $50,000 per annum (79% Wave 2, 73% Wave 1)
- **Non-professionals** were more likely to report they **had a budget** but **did not** stick to it in Wave 2 (16%) than in Wave 1 (11%).

#### Keeping track of money:
- The following sub-groups were more likely to report that they had **checked their bank statements for unusual/suspicious entries** in the last six months in Wave 2 compared to Wave 1:
  - Single parents with children at home (66% Wave 2, 44% Wave 1)
  - Those with a personal income of less than $50,000 per annum (65% Wave 2, 57% Wave 1)
  - Those aged 35-54 years (63% Wave 2, 56% Wave 1).
- The following sub-groups were more likely to report they had **used a household budget/spreadsheet** in the last six months in Wave 2 compared to Wave 1:
  - Males (26% Wave 2, 19% Wave 1)
  - Those aged 35-54 years (26% Wave 2, 19% Wave 1)
  - Those with a personal income of less than $50,000 per annum (25% Wave 2, 18% Wave 1).
- The following sub-groups were less likely to report that they had **looked at some or all of their bank/credit card statements but not in any detail** in the last six months in Wave 2 compared to Wave 1:
  - Those 55 years or older (13% Wave 2, 22% Wave 1)
  - Retirees (12% Wave 2, 22% Wave 1).
- The following sub-groups were more likely to report they had **used an online budgeting tool or app** in the last six months in Wave 2 compared to Wave 1:
  - Males (6% Wave 2, 3% Wave 1)
  - Singles living in shared accommodation with other adults (13% Wave 2, 4% Wave 1)
  - Retirees (6% Wave 2, 1% Wave 1).
While the majority of Australians are tracking expenses, comparatively few are planning ahead.

### Current (Wave 2)

#### Behaviour: key findings

<table>
<thead>
<tr>
<th>Financial planning:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Just over two in five (43%) surveyed Australians reported having a <strong>short-term (3-5 year) financial plan</strong>. Of these, 65% had monitored their progress in the last six months, 44% had made changes or adjustments, and 39% reported reaching some of the financial goals they had set themselves.</td>
</tr>
<tr>
<td>• Fewer, around one in five (22%), surveyed Australians reported having a <strong>long-term (15-20 year) financial plan</strong>. Of these, 60% had monitored progress in the last six months, 29% reported reaching some of the financial goals they had set themselves, and 39% had made changes or adjustments.</td>
</tr>
</tbody>
</table>

#### Superannuation:

<table>
<thead>
<tr>
<th>Superannuation:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Around three-quarters (76%) of all surveyed Australians reported that they had a <strong>superannuation fund</strong> [including those with self-managed superannuation funds (SMSF)], with an average holding of 1.3 funds.</td>
</tr>
<tr>
<td>• Close to one in ten (9%) of all surveyed Australians reported that they had a <strong>SMSF</strong>, with an average holding of 1.1 funds.</td>
</tr>
<tr>
<td>• Of those with superannuation [excluding those with SMSFs], 27% said they knew the <strong>balance of their main fund</strong> exactly or almost exactly, 45% had a rough idea, and 28% did not know their balance. Of those who reported having exact or some knowledge of the balance of their main fund, the indicative average value was $170,850.</td>
</tr>
<tr>
<td>• Of those with SMSFs, 54% said they knew the <strong>balance of their main fund</strong> exactly or almost exactly, 34% had a rough idea, and 12% did not know their balance. Of those who reported having exact or some knowledge of the balance of their main fund, the indicative average value was $399,224.</td>
</tr>
</tbody>
</table>

#### Insurance:

<table>
<thead>
<tr>
<th>Insurance:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Almost nine in ten (87%) of all surveyed Australians reported they held <strong>at least one insurance policy</strong>. Of these, most reported reviewing their level of cover in the last 12 months. The most commonly reviewed products were contents insurance (84%), home building insurance (82%), and comprehensive car insurance (80%).</td>
</tr>
<tr>
<td>• Of those with <strong>no insurance cover</strong> (13%), only about a quarter (24%) reviewed their insurance situation in the last 12 months.</td>
</tr>
</tbody>
</table>
## Behaviour: key findings

**Financial planning:**
- The proportion of surveyed Australians who reported having a **short-term (3-5 year) financial plan** increased in Wave 2 (43%) from Wave 1 (38%). However the reported period of time since creating a plan was relatively consistent across Waves 1 and 2, with almost half creating their plan in the past year (48% Wave 2, 47% Wave 1).
- While there was no change in the proportion of surveyed Australians who reported having a **long-term (15-20 year) financial plan** (22% Wave 2 and Wave 1), there was an increase in the proportion who reported having created their plan in the past six months in Wave 2 (20%) compared to Wave 1 (13%).

**Insurance:**
- There was no change in the proportion of surveyed Australians who reported they held **at least one insurance policy** (87% Wave 2 and Wave 1), and the proportion of those with no insurance who had reviewed their level of cover in the last 12 months did not change (24% Wave 2, 23% Wave 1).

## Demographics

**Financial planning:**
- The following sub-groups were more likely to report having a **short-term (3-5 year) financial plan** in Wave 2 compared to Wave 1:
  - **Females** (43% Wave 2, 37% Wave 1)
  - **Those under 35 years** (47% Wave 2, 37% Wave 1)
  - **Couples with children at home** (46% Wave 2, 36% Wave 1)
  - **Professionals** (55% Wave 2, 46% Wave 1).
- The following sub-groups were more likely to report having **created a long-term (15-20 year) financial plan** in the last six months in Wave 2 compared to Wave 1:
  - **Females** (23% Wave 2, 13% Wave 1)
  - **Those under 35 years** (34% Wave 2, 18% Wave 1)
  - **Those with a personal income of $50,000 or more** (19% Wave 2, 10% Wave 1)
  - **Those renting a property** (33% Wave 2, 16% Wave 1)
  - **Single and living in shared accommodation** (27% Wave 2, 3% Wave 1).
Choosing financial products

People use diverse sources of information when choosing financial products and there are variations in understanding of key investing concepts.

Current (Wave 2)

<table>
<thead>
<tr>
<th>Behaviour: key findings</th>
<th>Investments outside of superannuation and home:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• Over a third (37%) of surveyed Australians indicated they held <strong>investments other than their own home and superannuation</strong> in Wave 2.</td>
</tr>
<tr>
<td></td>
<td>• Of these investors, just under half (46%) reported they had kept an <strong>investing rule or strategy they had set themselves</strong> in the last 6 months. Around a quarter (27%) reported they had <strong>learned something that made them feel more confident</strong> in their investing ability in the last six months. However, just under one in ten (9%) of investors reported <strong>losing money they couldn’t afford to lose</strong> in the last six months.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Behaviour: key findings</th>
<th>Understanding of investment concepts:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• When asked about the concept of 'risk/return trade-off', 40% of surveyed Australians reported they had not heard of it, 28% stated they had heard of but didn't understand it, and 32% indicated they had heard of and understood the concept.</td>
</tr>
<tr>
<td></td>
<td>• Of the 32% who said they had <strong>heard of and understood the concept</strong>, 10% were unable to accurately describe the risk/return trade-off when tested.</td>
</tr>
<tr>
<td></td>
<td>• When asked to assess the <strong>level of risk</strong> associated with various types of investments, international shares (47% subtotal high risk) and derivatives (40% subtotal high risk) were generally viewed as high risk investments. Australian shares were generally regarded as mid-range risk (20% subtotal high risk). Cash (75% subtotal low risk), bonds/fixed income products (50% subtotal low risk) and direct property/real estate investments (42% subtotal low risk) were more likely to be identified as lower risk investments.</td>
</tr>
<tr>
<td></td>
<td>• When asked about the investing principle 'diversification', 31% of surveyed Australians reported they had not heard of it, 27% stated they had heard of but didn't understand it, and 42% stated they had heard of and understood the investing principle.</td>
</tr>
<tr>
<td></td>
<td>• Of the 42% who reported they had <strong>heard of and understood</strong> diversification, more than one in ten (91%) correctly identified diversification within a list of diversification examples (investing all your money across different investment choices such as shares, property and cash).</td>
</tr>
</tbody>
</table>
Comparison of Waves 1 and 2

<table>
<thead>
<tr>
<th>Behaviour: key findings</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Investments outside of superannuation and home:</strong></td>
</tr>
<tr>
<td>• A similar proportion of surveyed Australians indicated they held investments other than their own home and superannuation across both Wave 1 (35%) and Wave 2 (37%) of the research.</td>
</tr>
<tr>
<td>• Of these investors, the proportion who reported keeping an investing rule or strategy they’d set for themselves decreased in Wave 2 (46%) from Wave 1 (57%).</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Understanding of investment concepts:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Among all surveyed Australians, the level of understanding of the concept 'risk/return trade-off' remained stable from Wave 1 to Wave 2. Those who had heard of and understood the concept was consistent in Wave 1 (30%) and Wave 2 (32%).</td>
</tr>
<tr>
<td>• Of those who said they had heard of and understood the concept, the proportion who were unable to accurately describe the risk/return trade-off when tested was stable in Wave 2 (10%), compared to Wave 1 (9%).</td>
</tr>
<tr>
<td>• Reported understanding of diversification among surveyed Australians remained stable, with the proportion of those who had heard of and understood diversification consistent between Wave 1 (40%) and Wave 2 (42%).</td>
</tr>
<tr>
<td>• Of those who had heard of and understood the concept, the proportion who could correctly identify the investment principle of diversification from a list of examples was consistent between Wave 2 and Wave 1 (91% Wave 2 and Wave 1).</td>
</tr>

</tr>
<tr>
<td>• Those investors with a household income of $100,000 or more per annum were less likely to report they kept an investing rule or strategy they had set themselves in Wave 2 (34%) than in Wave 1 (55%). Couples with no children at home were less likely to report they kept an investing rule or strategy they had set themselves in Wave 2 (47%) than in Wave 1 (69%). Professionals were more likely to report they lost money they could afford to lose in Wave 2 (26%) than in Wave 1 (14%).</td>
</tr>
</tbody>
</table>
Staying informed

Family and friends are important information sources for many Australians, but 1 in 6 prefer not to talk to anyone about their household finances.

Current (Wave 2)

**Information sources:**
- When deciding to purchase/obtain or make changes to financial products in the last six months, the sources of information Australians consulted in the last six months varied according to product type:
  - **Bank websites** were commonly consulted for information about bank accounts (44%), credit cards (42%), personal loans (27%), home loans (26%) and investments (18%).
  - **Family and/or friends** were an important source of information across all product categories: bank accounts (23%), home loans (21%), investments (20%), credit cards (16%) and personal loans (15%).
  - When purchasing or making changes to investment products, a paid professional **financial adviser** (23%) and financial sections of the **newspaper** (18%) were also sources of information.
- Around 1 in 10 Australians did not consult any information sources when purchasing/obtaining or making changes to their credit cards (8%), investments (8%), personal loans (9%) and bank accounts (11%).

**Openly discuss household finances:**
- The level of comfort around openly discussing household finances with others varied depending on household structure. The majority of couples (88%) reported openly discussing their household finances with their partner. Amongst those who lived with their children, 18% reported openly discussing their household finances with their children.
- Over a quarter (27%) of all Australians reported openly discussing their household finances with their parents/family, 16% with financial professionals, and 15% with their friends.
- However, 16% reported they preferred not to talk to anyone about their household finances.

Comparison of Waves 1 and 2

**Information sources:**
- When deciding to purchase/obtain or make changes to **investment products** in the last six months, there was a decline in the proportion who had consulted the financial sections of the newspaper in Wave 2 (18%) from Wave 1 (28%).
### Behaviour: key findings (cont'd)

**Openly discuss household finances:**
- The proportion of people with whom surveyed Australians reported openly discussing their household finances was similar in both Waves of the research. Australians with a partner were most likely to report they openly discussed their household finances with their partner (88% Wave 2 and Wave 1). However, close to one in five (16% Wave 2, 19% Wave 1) reported that they prefer not to talk about their finances with anyone.

### Demographics

**Information sources:**
- When deciding to purchase/obtain or make changes to *investment products* in the last six months:
  - Males were less likely to report they had visited their bank’s website to source information regarding their investments (16% Wave 2, 31% Wave 1).
  - Those under 35 years were less likely to report they had talked to their family and/or friends (23% Wave 2, 39% Wave 1).
  - Those with a household income of less than $100K were less likely to report they had read the financial sections of the newspaper (13% Wave 2, 29% Wave 1).
  - Couples with no children at home were less likely to report they had visited their bank’s website to source information regarding their investment (16% Wave 2, 40% Wave 1), but were more likely to have talked to family and/or friends (15% Wave 2, 5% Wave 1).
- Homeowners were less likely to report they had visited their bank’s website (16% Wave 2, 28% Wave 1), and less likely to have read the financial sections of the newspaper (18% Wave 2, 31% Wave 1).
Financial control

Most Australians reported saving some money within the last six months.

Current (Wave 2)

<table>
<thead>
<tr>
<th>Behaviour: key findings</th>
</tr>
</thead>
<tbody>
<tr>
<td>Methods to save money:</td>
</tr>
<tr>
<td>• Almost 2 in 5 (37%) surveyed Australians reported they saved money using a savings account that was not automatically linked to their pay over the last six months. A quarter (26%) reported saving money via a savings account that was automatically linked to their pay over the last six months, and 24% managed to save money without having a savings plan in place, by earning more than they spent over the last six months.</td>
</tr>
<tr>
<td>• However, 17% of all respondents stated they did not save any money over the last six months.</td>
</tr>
<tr>
<td>Repayment behaviours:</td>
</tr>
<tr>
<td>• Amongst those Australians with a home loan/mortgage, three in five (60%) paid some money in addition to the minimum amount in the last six months.</td>
</tr>
<tr>
<td>• Of those Australians with a credit card, three in five (58%) reported paying the balance in full each month, and a quarter (26%) paid some money in addition to the minimum amount due.</td>
</tr>
<tr>
<td>Strategies for handling unexpected large bills:</td>
</tr>
<tr>
<td>• Among the 40% of surveyed Australians who stated they had received unexpectedly large bills/expenses in the last six months, 53% reported they had used money from savings to cover the cost of the bills/expenses. A further 35% stated they had cut back on spending to cover the cost and a quarter (26%) reported they had used a credit card, store card or overdraft to cover the cost.</td>
</tr>
<tr>
<td>Strategies for handling a sudden loss of income:</td>
</tr>
<tr>
<td>• When asked if they could cover three months’ living expenses if they suffered a sudden loss of income, most people (92%) stated that they would be able to cover this in some way:</td>
</tr>
<tr>
<td>o Over half (51%) reported they would access money through their own savings and investments to cover the cost.</td>
</tr>
<tr>
<td>o Close to 1 in 5 (18%) reported they would sell something, or get a loan from friends and family (15%).</td>
</tr>
<tr>
<td>o However, 8% believed they would not be able to cover this cost.</td>
</tr>
</tbody>
</table>

Comparison of Waves 1 and 2

<table>
<thead>
<tr>
<th>Behaviour: key findings</th>
</tr>
</thead>
<tbody>
<tr>
<td>Methods to save money:</td>
</tr>
<tr>
<td>• The proportion of surveyed Australians who saved money using a savings account that was automatically linked to their pay over the last six months increased (26% Wave 2, 22% Wave 1). Similarly, the proportion of people who saved money but not through a savings account over the last six months increased (19% Wave 2, 15% Wave 1).</td>
</tr>
</tbody>
</table>
### Behaviour: key findings (cont’d)

- The most common method used to save money in both Waves of the research was **saved money using a savings account that is not automatically linked to my pay** (37% Wave 2, 38% Wave 1).
- However, around one in five (17% Wave 2, 18% Wave 1) Australians indicated that they **did not save any money** over the last 6 months.

**Repayment behaviours:**
- Among those with a **credit card**, the proportion of those who paid the amount due on their credit card in full each month was lower in Wave 2 (58%) than in Wave 1 (64%). However, the proportion of Australians who paid some money in addition to the minimum amount due was higher in Wave 2 (26%) than in Wave 1 (21%).

**Strategies for handling unexpected large bills:**
- Among those who had received unexpectedly large bills/expenses in the last six months, the proportion of people who reported they had **borrowed money from their friends or family to cover the cost** increased (16% Wave 2, 10% in Wave 1).

**Strategies for handling a sudden loss of income:**
- When asked if they could **cover three months’ living expenses if they suffered a sudden loss of income**, there was a decline in the proportion who stated they didn’t know but would find a way (15% Wave 2, 21% Wave 1).

### Demographics

**Methods to save money:**
- The following sub-groups were more likely to report that they **saved money using a savings account that was automatically linked to their pay** in the last six months in Wave 2 compared to Wave 1:
  - Those **aged 35-54 years** (28% Wave 2, 21% Wave 1)
  - Those with a **personal income of less than $50,000 per annum** (24% Wave 2, 18% Wave 1)
  - Those with a **household income of $100,000 or more per annum** (23% Wave 2, 25% Wave 1)
  - **Couples with no children at home** (28% Wave 2, 20% Wave 1)
  - **Homeowners** (27% Wave 2, 21% Wave 1)
  - **Non-retirees** (29% Wave 2, 24% Wave 1).

- The following sub-groups were more likely to report that they **had saved money but not through a savings account** in the last six months in Wave 2 compared to Wave 1:
  - Those with a **household income of $100,000 or more per annum** (20% Wave 2, 14% Wave 1)
  - **Homeowners** (18% Wave 2, 13% Wave 1)
  - **Non-retirees** (19% Wave 2, 15% Wave 1).
### Repayment behaviours:
- The following sub-groups with a credit card were more likely to report they had paid some money in addition to the minimum each month in Wave 2 compared to Wave 1:
  - **Females** (30% Wave 2, 22% Wave 1)
  - Those **55 years or older** (25% Wave 2, 14% Wave 1)
  - Those with a **household income of $100,000 or more per annum** (30% Wave 2, 21% Wave 1)
  - **Non-professionals** (32% Wave 2, 22% Wave 1)
  - Those **renting** (39% Wave 2, 28% Wave 1).

### Strategies for handling unexpected large bills:
- The following sub-groups were more likely to report they had borrowed money from family or friends to handle unexpectedly large bills/expenses in Wave 2 compared to Wave 1:
  - **Males** (15% Wave 2, 8% Wave 1)
  - Those with **personal income of less than $50,000 per annum** (22% Wave 2, 12% Wave 1)
  - Those with a **household income of $100,000 or more per annum** (12% Wave 2, 6% Wave 1)
  - ** Couples with children at home** (17% Wave 2, 8% Wave 1).
- The following sub-groups were more likely to report they used a credit card, store card or overdraft to handle unexpectedly large bills/expenses in Wave 2 compared to Wave 1:
  - Those **55 years or older** (35% Wave 2, 19% Wave 1)
  - **Retirees** (32% Wave 2, 10% Wave 1).

### Strategies for handling a sudden loss of income:
- The following sub-groups were less likely to report they did not know how but would find a way to cover three months’ worth of living expenses in Wave 2 compared to Wave 1:
  - Those **aged 35-54 years** (16% Wave 2, 24% Wave 1)
  - Those with **personal income of less than $50,000 per annum** (18% Wave 2, 26% Wave 1)
  - Those with a **household income of less than $100,000 per annum** (16% Wave 2, 24% Wave 1)
  - ** Couples with children at home** (14% Wave 2, 21% Wave 1)
  - ** Couples with no children at home** (11% Wave 2, 17% Wave 1)
  - Those **renting** (20% Wave 2, 32% Wave 1)
  - **Non-professionals** (15% Wave 2, 28% Wave 1)
  - **Non-retirees** (15% Wave 2, 22% Wave 1).
Sample profile: Wave 2 demographic breakdown

The following section outlines the demographic breakdown of Australians surveyed in Wave 2 of the *Australian Financial Attitudes and Behaviour Tracker* research (September 2014 to February 2015). The survey sample was weighted to be representative of the Australian population, based on age, gender and location of main residence, using 2011 census data provided by the Australian Bureau of Statistics (ABS).

Survey questions

The following is a list of all questions asked of surveyed Australians who completed the Australian Financial Attitudes and Behaviour Tracker in Wave 2 (September 2014 to February 2015) of the research.

SECTION 1: SURVEY ELIGIBILITY

S1. Firstly, just to ensure we are speaking to a wide range of people, can you tell me whether you work in any of the following areas? *(PLEASE SELECT ALL THAT APPLY)*
- Banking/Finance
- Advertising/Marketing/PR
- Education
- Car manufacturer/Dealer
- Manufacturing/Distribution of food
- Market research
- None of these

S2. Are you…? *(PLEASE SELECT ONE RESPONSE ONLY)*
- Male
- Female

S3. Which of the following age groups do you fall into? *(PLEASE SELECT ONE RESPONSE ONLY)*
- Under 18 years
- 18-24 years
- 25-29 years
- 30-34 years
- 35-39 years
- 40-44 years
- 45-49 years
- 50-54 years
- 55-59 years
- 60-64 years
- 65 years or over

S4. Where do you currently live? *(PLEASE SELECT ONE RESPONSE ONLY)*
- NSW - Sydney
- NSW - Other
- ACT
- VIC - Melbourne
- VIC - Other
- TAS
- QLD - Brisbane
- QLD – Other
- SA – Adelaide
- SA – Other
- NT
- WA – Perth
- WA – Other
- Other

SECTION 2: FINANCIAL BEHAVIOUR

The next few questions are about your recent financial experiences. Remember that all your responses are anonymous and cannot be linked to you, so please be as honest as possible.

F1. Which of the following financial products do you currently have for your own personal use? *(PLEASE SELECT ALL THAT APPLY)*
- General transaction account(s)
- Savings account or term deposit
- Credit Card(s)
- Personal loan(s) – other than home loans and car loans
- Home loan(s) - not including investment property loans
- Car loan
- Shares
- Investments such as managed funds or unit trusts (excluding superannuation)
- None of these

F2. Which of the following best describes your approach to your personal finances over the last 6 months? *(PLEASE SELECT ONE RESPONSE ONLY)*
- I had a budget and always stuck to it
- I had a budget and mostly stuck to it
- I had a budget but did not stick to it
- I did not have a budget during this period
F3. Do you have a 3-5 year financial plan?
By financial plan we mean a series of actions to achieve a financial goal or
goals; these may be written or not.
*(PLEASE SELECT ONE RESPONSE ONLY)*
Yes □ 01
No □ 02
ASK IF F3=1

F4. How long ago did you make this 3-5 year plan?
*(PLEASE SELECT ONE RESPONSE ONLY)*
In the past 6 months □ 01
Between 6 months and a year □ 02
1 to 2 years ago □ 03
3 to 4 years ago □ 04
5 years or more □ 05
ASK IF F3=1

F5. Which of the following have you done on your 3-5 year financial plan within the
last 6 months?
*(PLEASE SELECT ALL THAT APPLY)*
Monitor my progress □ 01
Reached some of the financial goals I set □ 02
Adjusted my financial plan □ 03
Have not done anything □ 04
None of these □ 05
ASK IF F3=1

F6. Do you have a 15-20 year financial plan?
By financial plan we mean a series of actions to achieve a financial goal or
goals; these may be written or not.
*(PLEASE SELECT ONE RESPONSE ONLY)*
Yes □ 01
No □ 02
ASK IF F6=1

F8. Which of the following have you done on your 15-20 year financial plan within the
last 6 months?
*(PLEASE SELECT ALL THAT APPLY)*
Monitor my progress □ 01
Reached some of the financial goals I set □ 02
Adjusted my financial plan □ 03
Have not done anything □ 04
None of these □ 05
ASK IF F6=1

F9. Now thinking about savings, which of the following have you done over the last 6
months?
*(PLEASE SELECT ALL THAT APPLY)*
Saved money using a savings account that is not automatically linked to
my pay (i.e. manually place money into this account when I have
extra cash) □ 01
Saved money using a savings account that is automatically linked to
my pay (i.e. money is automatically placed into this account when I
get paid) □ 02
Saved money but not through a savings account (e.g. I put money in
an envelope or money box and did not touch it) □ 03
I saved money without having a savings plan in place (i.e. I earned
more money than what I spent) □ 04
Saved money by making voluntary contributions to my superannuation
□ 05
Saved money by paying more than the minimum amount off my
mortgage or other personal loan □ 06
Other, please specify □ 07
I did not save any money over the last 6 months □ 08
ASK FOR EACH F1=3, 4, 5, 10

F11. Thinking about your main [INSERT FROM F1] over the last 6 months have you…
*(PLEASE SELECT ONE RESPONSE ONLY)*
Missed one or more minimum payments due □ 01
Paid the minimum amount due each month □ 02
Paid some money in addition to the minimum amount due, but not
the full amount □ 03
[FOR F1=3 OR 4] Paid the amount due in full each month □ 04
[FOR F1=5 OR 10] Paid the loan off in full □ 05
None of the above □ 06
I’d prefer not to say □ 07
ASK FOR EACH CODE IN F11 THAT=1
F12. Why did you miss the repayment(s) for your [INSERT FROM F11]?
(PLEASE SELECT ALL THAT APPLY)
- I had reduced income due to a change in circumstances 01
- I forgot / too much else going on 02
- I didn’t budget for it properly 03
- I overspent on other things 04
- I had some unexpected expenses 05
- Other (Please specify) 06

F13. Over the last 6 months, can you remember receiving any unplanned large bills or expenses?
(PLEASE SELECT ONE RESPONSE ONLY)
- Yes 01
- No 02
- Don’t remember 03

ASK IF F13=1
F14. How did you cover the cost increase of this unplanned large bill/expense?
(PLEASE SELECT ALL THAT APPLY)
- I cut back on my spending 01
- I got a job / I got a second job / I worked additional hours in my existing job 02
- I used money from my savings to cover it 03
- I sold some of my belongings/possessions/assets to raise funds 04
- I borrowed money from my friends or family 05
- I used a credit card, store card or overdraft to pay for it 06
- I made arrangements with my provider so that I could pay less/suspend payment 07
- I took out a short term loan 08
- I claimed the expense on insurance 09
- I sought help from a charity 10
- I reduced voluntary payments for my mortgage or other personal loan 11
- I reduced voluntary payments to my superannuation 12
- Other (Please specify) 13
- None of the above (I did not take action) 14
- I’d prefer not to say 15

F15. Which of the following statements best describes how you would manage if you suffered a sudden loss of income and had to cover three months’ living expenses?
(PLEASE SELECT ALL THAT APPLY)
- I would access money through my own savings and investments 01
- I would sell something 02
- I would access credit from a financial institution 03
- I would use some form of income replacement insurance 04
- I would get a loan from friends and family 05

F16. Which of the following methods have you used in the last 6 months to keep track of your money?
(PLEASE SELECT ALL THAT APPLY)
- I kept track of my money by writing down notes 01
- I kept receipts 02
- I used a household budget/spread sheet 03
- I used an online budgeting tool or app 04
- I used an app to keep track of my spending 05
- I checked my bank statements for unusual/suspicious entries 06
- I checked my credit card statements for unusual/suspicious entries 07
- I looked at some or all of my bank/credit card statements but not in any detail 08
- Other (Please specify) 09
- None of the above (I didn’t keep track of my spending) 10
- I’d prefer not to say 11

F17. In the past 6 months, have you purchased/obtained or made changes to any of the following?
(PLEASE SELECT ALL THAT APPLY)
- (1) Purchased/obtained 1
- (3) Made changes to an existing product 3
- (4) I do not have one of these products 4
- (5) I have not made changes to an existing product 5
Credit card 1345
Home loan 1345
Investments excluding super e.g. shares, investment properties 1345
Personal loan e.g. car 1345
Bank account e.g. bank deposit, savings account 1345

ASK FOR EACH CODE IN F17 THAT=1 or 3
F18. When you were deciding to [INSERT COLUMN TEXT FROM F17 AS CURRENT TENSE] for your [INSERT PRODUCT], which of the following best describes what you did?
(PLEASE SELECT ALL THAT APPLY)
- Read the product disclosure document to review product features and terms and conditions 01
- Talked to a paid professional financial adviser (e.g. accountant, financial adviser) 02
- Talked to a free financial counsellor 03
- Talked to family and/or friends 04
Talked to my partner [05]
Read the financial sections of the newspaper [06]
Used a comparison website [07]
Visited ASIC’s “MoneySmart” website [08]
Visited my bank’s website [09]
Talked to a representative of the product company [11]
Responded to an advertisement promotion [12]
Talked to a finance/mortgage broker [13]
Other (Please specify) [14]
None of the above [15]

F19. Do you have any of the following insurance products?  
(PLEASE SELECT ALL THAT APPLY)
Home building insurance [01]
Contents insurance [02]
Life insurance [03]
Third party car insurance (not compulsory green slip) [04]
Comprehensive car insurance [05]
None of the above [06]

ASK FOR ALL CODES SELECTED IN F19. DON’T ASK IF F19=6 (NONE)

F20. When taking out or renewing your insurance cover for the last 12 months, did you check that the level of cover was still appropriate for your situation?  
(PLEASE SELECT ONE OPTION PER ROW)
Home building insurance Yes [1]  No, I didn’t check the level of cover [2]
Contents insurance Yes [1]  No, I didn’t check the level of cover [2]
Life insurance Yes [1]  No, I didn’t check the level of cover [2]
Third party car insurance (not compulsory green slip) Yes [1]  No, I didn’t check the level of cover [2]
Comprehensive car insurance Yes [1]  No, I didn’t check the level of cover [2]

ASK IF F19=6

F21. In the last 12 months have you reviewed your situation to check if it is appropriate not to have insurance products?  
(PLEASE SELECT ONE RESPONSE ONLY)
Yes [01]  No [02]

F22. Do you discuss your household finances openly with any of the following people?  
(PLEASE SELECT ALL THAT APPLY)
Friends [01]
My partner [02]
Parents/Family [03]
My children [04]
My colleagues [05]
Members of my local community (e.g. religious groups, mothers groups, etc.) [06]
Financial professionals (e.g. accountants, financial advisors, financial counsellors) [09]
Other, please specify… [07]
I prefer not to talk about my finances with any of these people [08]

F22.B Do you have a superannuation fund?  
(PLEASE SELECT ONE RESPONSE ONLY)
Yes [01]  No [02]  I do not know [03]

ASK IF F22.B=1

F22.C How many superannuation funds do you have?  
(PLEASE SELECT ONE RESPONSE ONLY)
1 [01]  2 [02]  3 [03]  4 [04]  5 [05]  More than 5 [06]  I do not know [07]

ASK IF F24=1

F24. Do you have a self-managed super fund (SMSF)?  
To see a definition of a SMSF please place your cursor here
(PLEASE SELECT ONE RESPONSE ONLY)
Yes [01]  No [02]  Not sure [03]

ASK IF F24=1

F24.A How many SMSFs do you have?  
(PLEASE SELECT ONE RESPONSE ONLY)
1 [01]  2 [02]  3 [03]  4 [04]  5 [05]  More than 5 [06]  I do not know [07]
ASK IF F22.B=1 OR F24=1

F23. Do you know the current dollar value of your main fund?
(PLEASE SELECT ONE RESPONSE ONLY)
Yes, I know exactly, or almost exactly ☐
Yes, I have a rough idea ☐
No, I do not know ☐

ASK IF F23=1 or 2

F25. What is the current value of your main fund?
(PLEASE SELECT ONE RESPONSE ONLY)
$1-99,000 ☐
$100,000-199,000 ☐
$200,000-499,000 ☐
$500,000-$999,000 ☐
$1,000,000+ ☐
Not sure ☐
Prefer not to answer ☐

ASK IF F22.B=1 OR F24=1

F25.A Do you know the current dollar value of your superannuation in total (including all funds you may have)?
(PLEASE SELECT ONE RESPONSE ONLY)
Yes, I know exactly, or almost exactly ☐
Yes, I have a rough idea ☐
No, I do not know ☐

ASK IF F25.A = 1, 2

F25.B What is the current value of your superannuation in total (including all funds you may have)?
