Investigating Links Between Childhood Financial Capability and Young Adult Outcomes: Recontact Study 2017-2018

Summary of Findings
Executive Summary

The transition from childhood to adulthood can be a challenging time. One of the many challenges that occurs for the young person during this period is taking on extra financial responsibilities and eventually becoming financially independent. It may be that there are ways to make these extra responsibilities less of a challenge, and to better support young people to enter adulthood with the financial capability they need to make informed financial decisions and achieve their goals.

Previous research\(^1\) has shown that as young people approach adulthood, skills-based learning relevant to the independent financial lives they will soon be leading is essential to enable them to enter adulthood with the skills and mindsets they need to make informed financial decisions and achieve their goals. Young people’s skills and behaviour at age 16 have been proven to be linked to their financial wellbeing later in life, and many of the indicators of vulnerability to poor financial capability as a young person are stronger at age of 16-17 than earlier ages. Previous research has also shown that many young people approaching independence do not have the skills, attitudes, and behaviours to enable them to make the most of their money.

However, there remain significant gaps in understanding from research about how financial education and financial capability as a child or young person links to financial capability as an adult.

This report aims to begin to address this. It outlines what we have found to have a link to the financial capability of young people who have recently transitioned into adulthood. It is based on statistical analysis of 397 people aged between 18 and 20 years of age, along with their parents or carers. The young people completed three annual surveys on their financial capability starting when they were aged between 15 and 17 years old.

Acknowledgements

The Money and Pensions Service would like to acknowledge and thank the organisations and individuals that have contributed to this survey. Particular thanks go to BMG who managed the 2017 and 2018 recontact survey. We would also like to thank members of our own Insight and Evaluation and Policy teams who have worked on this report, in particular Chantelle Whelan and Ann Griffiths. Finally, we would like to thank the children, young adults and their parents that took the time to take part in this research.

Section 1 – Links between child financial capability and young adult outcomes

We found that components of financial capability during childhood had an impact on financial capability when the young person reached adulthood.

We looked at the relationship between the young person’s scores on various components of financial capability when aged 15 to 17 and elements of financial capability once they reached adulthood, aged 18 to 20.

Key findings

All other things being equal:

When children had higher financial numeracy, then as young adults they:

- had a higher amount of savings
- were more likely to choose long term over short term financial gain
- were less likely to borrow e.g. overdraft, credit card and from friends/family

When children actively saved or had a savings mindset, then as young adults they:

- felt more confident making decisions about financial products and services
- were less likely to borrow e.g. overdraft, credit card and from friends/family
- were less likely to feel their bills were a burden

When children were more likely to set goals, then as young adults they:

- were less likely to feel financially satisfied
- were less likely to feel pressure to spend like their friends when they couldn’t afford it
Section 2 – Links between parent financial capability and young adult outcomes

We found that the young person’s parent or carer’s behaviour and attitudes also had an impact on the young person’s financial capability when they reached adulthood.

We explored the relationship between the aspects of the parent or carer’s financial capability before the young person reached adulthood and the young person’s financial capability at 18 and over.

Key findings

▪ When parents/carers saved regularly, the young person was less likely to borrow
▪ When parents/carers felt anxious about money, the young person was more likely to buy on impulse, to borrow, and to feel pressure to buy
▪ When parents/carers didn’t think anything they did would make a difference to their financial situation, the young person was more likely to borrow
▪ When parents/carers considered themselves to be a good role model, the young person was more likely to choose long term over short term gain. They were also less likely to borrow, to use credit products, and to feel pressure to buy
▪ When parents/carers thought they could affect their child’s behaviour, the young person was less likely to buy on impulse, to borrow, and to feel pressure to buy
▪ When parents/carers were over-indebted, the young person was more likely to borrow

Implications and recommendations

The study has found, as in other research, that greater numeracy skills have a positive influence on financial capability. This reinforces the importance of receiving financial education for children and young people. In future work with 16-17 year olds, the findings from this study suggest that saving and setting goals are two areas that it would be beneficial to focus on and track change on as a result of education provided.

The relationship between parent/carer behaviours and attitudes and the young person’s later financial capability also increases confidence in our previous work that has highlighted the importance of parents in educating their children on managing money.
Introduction

We recognise that for many young adults, navigating the transition to financial independence and more independent living can be challenging. Consequently, poor financial decisions that are made at this time of an individual’s life can have severe consequences. The key challenge for this group is to manage the immediate financial implications of these transitions and to ensure that any decisions taken do not have adverse longer-term consequences, such as the risk of tipping into problem debt or of opting out of a workplace pension.

Our previous research\(^2\) has shown that as young people approach adulthood, skill-based learning relevant to the independent financial lives they will soon be leading, the problems they will need to solve and decisions they will need to make, is essential to enable them to enter adulthood with the skills and mindsets they need to make informed financial decisions and achieve their goals.

Young people’s cognitive and social-emotional skills and behaviour at age 16 have been proven to be linked to their financial wellbeing later in life, and many of the indicators of vulnerability to poor financial capability as a young person are strongest at the ages of 16-17 compared to other stages of childhood and adolescence.

Previous research has also shown that many young people approaching independence do not have the skills, attitudes, and behaviours to enable them to make the most of their money. For example, almost one in five young people at this age have no bank account at all, and almost 6 in 10 14-17 year olds could not read a payslip correctly.

Financial education can make a difference to young people’s financial capability in the years before independence and during transition, but still too little is known about the links between financial capability as a child or young person and financial capability later in life.

With this in mind, we sought to gather robust evidence to better understand the transition period of young people living in the UK, into adulthood, specifically with regards to their financial capability. We also wanted to explore the links between their financial capability as older children and their behaviour/financial capability as a young adult. Therefore, we conducted a recontact study with a number of participants from the original 2016 Children and Young People’s Financial Capability Survey (see here for more details on the original survey - 2016 Children and Young People’s Financial Capability Survey).

The focus of the follow-up survey was to assess how the financial capability of those young people who were aged 15, 16 or 17 during the original wave of the 2016 research, might have impacted their own progress, and how their financial capability might have changed or developed as they started to become aware of, or take on, many of the financial responsibilities that are associated with adulthood.

---

\(^2\) https://masassets.blob.core.windows.net/cms/files/000/000/962/original/CYP_Needs_Analysis_final.PDF
In 2017 and 2018, children aged between 15 and 17 in the 2016 survey completed two follow up surveys to track their progress. The follow-up surveys used questions from the 2016 Children and Young People’s and 2015 Adult Financial Capability surveys to explore the following areas of financial capability:

- Income, saving and spending
- Debt and financial responsibilities
- Advice and goals
- Personality and habits
- Financial numeracy / knowledge

More details on the fieldwork for this study and the 2015 Adult Financial Capability survey can be found here.

To explore the relationships between a young person’s financial capability in the lead up to adulthood, we analysed the data of those who were 18 or above when completing the survey during 2017 or 2018. In total we analysed data for 397 young people.

The remainder of this report will describe the analysis carried out on this group of young adults. It is split into four sections:

1. **Methods**: outlines the analysis conducted for this project
2. **Links between child financial capability and young adult outcomes**: describes the analysis that was carried out to explore the relationship between the young person’s financial capability before they reached the age of 18 and their financial capability once they had reached adulthood
3. **Links between parent financial capability and young adult outcomes**: describes the analysis that was carried out to explore the relationship between the young person’s parent or carer’s financial capability when the young person was under 18 and the young person’s financial capability once they had reached adulthood
4. **Conclusions / implications**: summarises the key findings from the analysis and potential implications
Methods

Investigating the links between child financial capability and young adult outcomes

In 2016 4,958 children and young people (as well as their parent/carer) completed the Children and Young People Financial Capability survey.

To inform the Children and Young People’s Needs Analysis, data from the 2016 survey was used to understand and define ‘composite’ measures of children and young people’s financial capability that give a strong indication of how well children and young people are doing on the different elements of financial capability. More details on the analysis of the 2016 Children and Young People’s Financial Capability survey can be found at https://www.moneyadviceservice.org.uk/en/corporate/research. The composite measures were grouped under our Children and Young People’s Outcomes framework:

<table>
<thead>
<tr>
<th>Behaviours:</th>
<th>Connection:</th>
<th>Mindset:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Day to day money management</td>
<td>• Child responsible for financial decisions</td>
<td>• Savings mindset</td>
</tr>
<tr>
<td>• Active saving</td>
<td>• Engagement with bank account</td>
<td>• Understands money’s value</td>
</tr>
<tr>
<td></td>
<td>• Involvement in household spending</td>
<td>• Shopping around</td>
</tr>
<tr>
<td></td>
<td>• Experience with phone payments</td>
<td>• Financial confidence</td>
</tr>
<tr>
<td></td>
<td>• Discussing money</td>
<td>• Goal setting</td>
</tr>
<tr>
<td></td>
<td>• Digital engagement</td>
<td>• Attitude to financial situation</td>
</tr>
</tbody>
</table>

In 2017 and 2018 questions from the 2015 Adult Financial Capability Survey were added to questions from the 2016 Children and Young People’s Financial Capability Survey to create a survey to measure aspects of financial capability in the early years of adulthood for those young people aged 15 to 17 in the 2016 survey.

---

These included questions on:

- Saving amount
- Short versus long term financial gain (whether they would choose an immediate financial gain or wait and receive a larger amount)
- Life / Financial satisfaction
- Confidence
- Use of credit products
- Unsecured borrowing
- Over-indebted
- Buying on impulse
- Pressure to buy

The full questionnaires can be found in appendices 4-6.

To investigate the relationship between the child financial capability and young adult outcomes the composite measures identified in 2016 and the adult outcomes included in the 2017 and 2018 surveys were analysed, considering in particular, whether the 2016 composites predicted adult outcomes. To do this we undertook regression analyses for each of the adult outcomes. Regression analytic techniques allow us to see the predictive nature of a measure on an outcome whilst controlling for certain characteristics. For more information on these techniques, see Box 1.
In our models we controlled for:

- **Young person’s characteristics:**
  - Gender
  - Age
  - Ethnicity
  - Education status (whether still in education and what type)
  - Household income

- **Parent’s characteristics in 2016:**
  - Relation to young person
  - Parenting responsibility (e.g. sole or joint responsibility)
  - Age
  - Working status

- **Young person’s source of money in 2016** (e.g. pocket money, chores, work, special occasions)

---

**Box 1**

Regression analysis is a statistical method which enables the effects of multiple characteristics on an outcome of interest to be assessed at the same time. The analysis identifies which of the characteristics exert independent effects on financially capable behaviours by simultaneously controlling for the effects of all of the other characteristics included in the analysis. So if we are concerned that a young person’s household income may have an effect on their adult outcomes we can incorporate this into the model. The model measures the effect of controlled characteristics (like income) on the outcomes and works out how much the outcome is affected by the predictors in spite of the controlled characteristics.

Strictly speaking, the ‘effects’ that we observe in regression analysis – of a predictor on the outcome measure – are statistical relationships (associations). In practice, any cause-and-effect relationship between statistically associated predictors and outcomes could run in the opposite direction, and it is only our underlying theory or assumptions (which go into building the analysis) which allow us to interpret these associations as the effects or influence of one on the other.
Investigating the links between parent financial capability and young adult outcomes

In the 2016 survey, one of the young person’s parents or carers also took part. They were asked questions related to their own financial capability including their attitudes towards money management and how they felt they could influence their child’s behaviour. We decided to explore how these behaviours and attitudes related to the young person’s financial capability once they reached 18.

As this was not the primary focus of our research, we did not run full regression models to explore these relationships. Instead we ran bivariate analyses to see if there were any links between the adult outcomes from the previous section and the outcomes measured both in the original 2016 survey and in the follow up phases. See Box 2 for more detail on bivariate analysis. The measures were as follows:

- Parent measures in 2016:
  - Parent/carer saving frequency
  - Parent/carer felt anxious about money
  - Parent/carer didn’t think they could make a difference to their financial situation
  - Parent/carer thinks they will make a good role model
  - Parent/carer over-indebted

- Young person measures:
  - Short versus long term gain
  - Likelihood to buy on impulse
  - Likelihood to feel pressure to buy
  - Saving frequency
  - Whether have borrowed
  - Attitude to borrowing
  - Use of credit products
  - Use of high cost short term credit
  - Over-indebted

Box 2

Bivariate analyses are statistical methods that explore the effect of one variable on another. Unlike regression analysis, it doesn’t account for other characteristics that could also possibly be causing an effect, e.g. income.

So any relationships we found between parental attitudes/behaviours and the young person’s outcomes may actually be influenced by other factors.

Despite this limitation, the results of the bivariate analyses do provide an insight into the relationships that exist.

Further investigation can tell us if these are due to other factors.
Links between child financial capability and young adult outcomes

Having better numeracy skills, saving and setting goals as a child have generally positive impacts on financial capability as adults. There were some links we had expected to see but the analysis did not find statistically significant. We had expected the Active saving and Savings mindset composites to have a link with savings amount as a young adult. Both of these significantly predicted savings amount at the 2018 follow up but not the 2017 follow up. It may be that these composites have a longer-term effect on savings amount as a young adult. Similarly, the goal setting composite was significantly predictive of the number of financial goals as a young adult 2018 but not 2017. It is worth considering the potential longer-term effects of these aspects of a young person’s financial capability and whether it is worth conducting further longitudinal analysis to explore this.

We found that three aspects of the young person’s financial capability when aged between 15-17 significantly predicted adult outcomes:

1. Financial numeracy
2. Saving (active and mindset)
3. Goal setting

---

Statistical significance is a measure of the likelihood that a finding observed based on a sample is representative of the population from which it is drawn. The usual convention is a threshold of 95 per cent likelihood which is equivalent to a one in 20 chance that the effect observed in the sample is not a true effect in the population. All results in this reported were found to be significant at the 95 per cent level.

Financial numeracy was determined using quiz questions on topics such as interest and inflation.
Young person’s financial capability in 2016 (aged 15-17)

- Actively saved / Savings mindset

Young adult’s financial capability in 2017/8 (aged 18-20)

- More confident making decisions about financial products
- Less likely to feel burdened by bills
- Less likely to borrow

- Higher amount of savings
- More likely to choose long over short term financial gain
- Less likely to borrow

- Less likely to feel financially satisfied
- Less likely to feel pressure to spend like their friends
Links between parent financial capability and young adult outcomes

Aspects of a parent/carer’s behaviour and attitudes are related to financial capability when their children are transitioning into adulthood. Positive behaviours and attitudes such as saving regularly and thinking they would make a good role model for their child are related to more positive financial capability when their children are transitioning into adulthood. Conversely negative behaviours and attitudes such as feeling anxious about money or being over-indebted are related to more negative financial capability in the young person when in the transition phase.

Six aspects of parent/carer attitudes and behaviour significantly\(^7\) predicted adult outcomes.

<table>
<thead>
<tr>
<th>Parent/carer’s financial capability in 2016</th>
<th>Young adult’s financial capability in 2017/8 (aged 18-20)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Saved / regularly</td>
<td>Less likely to borrow</td>
</tr>
</tbody>
</table>

\(^7\) Statistical significance is a measure of the likelihood that a finding observed based on a sample is representative of the population from which it is drawn. The usual convention is a threshold of 95 per cent likelihood which is equivalent to a one in 20 chance that the effect observed in the sample is not a true effect in the population. All results in this reported were found to be significant at the 95 per cent level.
Conclusions

This study has shown that there are links between a child’s financial capability in late childhood and when they reach adulthood. It has also identified relationships between parent and carer financial capability and young adult behaviours and attitudes. This is an important step forward in addressing a gap in our understanding from research about how financial capability as a child links to financial capability later in life.

Actively saving, having a savings mindset, having greater financial numeracy skills and setting goals were as measured in the 2016 Children and Young People’s Financial Capability survey seem to be particularly predictive of adult outcomes at age 18 to 20.

Parent’s likelihood to save, attitudes and beliefs about their financial situation and how they can affect their child as well as whether they were over-indebted were found in this study to be linked to young adult outcomes. These areas may be worthy of particular focus in future work to support parents.

This study has also highlighted further research that would be beneficial to conduct to build on the findings from this work. For example, some in-depth research utilising qualitative techniques to explore parental attitudes and what this may mean for their child’s financial capability.

It will continue to be important to develop our understanding of the links between childhood financial education and capability and adult outcomes further. This study has begun to address gaps in our knowledge around the years of transition to adulthood, and provides new proof of links between what happens as a teenager and financial outcomes in the first years of financial independence. There remains work to do to fully understand how the financial education received in the earlier years of life, and financial capability as a child, are connected to and impact on later financial outcomes. Further analysis of longitudinal studies, and longer-term follow-up as part of evaluation of financial education interventions, would be a valuable next step in this journey.
Appendices

Appendix 1 - Regression results tables

The tables below show the direction of the effect of each composite on adult outcomes.

↑ = An increase in the CHILDREN AND YOUNG PEOPLE’S FINANCIAL CAPABILITY SURVEY composite score predicted an increase in the adult outcome

↓ = An increase in the composite score predicted a decrease in the adult outcome

Directional effects are shown where an effect was seen across both 2017 and 2018. Significant effects are shaded blue. When results were inconclusive across the two waves of data (2017 and 2018) cells are left blank.

Appendix 3 - Technical overview of analysis

All analyses were conducted using StataSE version 14.

Child financial capability and young adult outcomes

From the full dataset of respondents who took part at wave 1 (2016), wave 2 (2017) or wave 3 (2018), respondents who were aged between 15-17 at wave 1 and 18+ at wave 2 or 3 were retained for analysis. In total 397 respondent data were analysed.

Separate models were created for each of the 13 outcomes and each component ‘block’ (ability, connection, mindset, behaviour). We had originally wanted to look at all components in one model, however this may have led to over-fitting, therefore we made the decision to make separate models for each block. In addition, two models were produced for each of these, one prioritising wave 2 and one prioritising wave 3 data. This was done as we wanted to explore differences between waves while retaining as large a sample as possible. The regression model used, depended on the type of outcome variable (these included binary, categorical and continuous variables). Logistic, ordered logistic and multiple regression models. The distributions of the predictor and outcome variables are detailed in the tables below.

Parent financial capability, pocket and regular money and young adult outcomes

The parent and other variables of interest for post-hoc analysis varied in type. Depending on the type of outcome variable we performed t-tests, chi square and logistic regression (with no control variables) to explore their relationship with the young adult outcomes. Again weighting was incorporated in all analyses. The distributions of the variables (including the three outcomes that were not explored in the previous analysis) are detailed in the tables below. The results described in the main body of this report are ones that were significant. As receiving pocket or regular money were not significantly related to the adult outcomes, the main report only refers to the relationship between parent financial capability and young adult outcomes.

Appendix 4 – 2016 Children and Young People’s survey questions

Questionnaire Key
The following key identifies who answered each question:

(P) – Parent question
(PP) – Parent question in reference to the child
(C) – Child question
(CC) – Child question relating to parent question

INTRODUCTION
Thank you for agreeing to take part in our survey today.
All of the answers you give to these questions will be completely anonymous and confidential.

QUESTIONS
N52. (P) [ASK ALL] This survey requires respondents to give their full postcode. Are you happy to provide this? This information will only be used for statistical purposes to analyse the results by specific areas, such as Local Authority, Constituency and Government areas. Asking for your postcode saves you time and helps us to report more accurate information. All answers will be treated entirely anonymously and postcode information will not be used for any other purpose.

[SINGLE RESPONSE]
1. Yes
2. No [CLOSE]

N53. (P) [ASK ALL] Please enter your postcode in the box below:

[OPEN RESPONSE]

UK_region {hDemRgn} (P) [ASK ALL] To help us check where in the country you are, please click on the map below.

[SINGLE RESPONSE]
1. North East
2. North West
3. Yorkshire
4. East Midlands
5. West Midlands
6. East of England
7. South East
8. South West
9. London
10. Scotland
11. Wales
12. Northern Ireland
13. None of these [CLOSE]

Sc2. \{hDemOcc\} (P) [ASK ALL] Including yourself, please select who lives in your household from the following (Please don't forget yourself!):

[MULTI RESPONSE]
1. Adults (Grandparents)
2. Adults (Parents/Step-parents/Carers)
3. Adult Children (18+)
4. Young adults (15-17)
5. Teenagers (12-14)
6. Older children (8-11)
7. Young children (3-7)
8. Babies & Toddlers (0-2)
9. Other adults (18+)

Sc3. (P) [ASK ALL] Please select the gender of everyone who lives in your household (Please don't forget yourself!):

[SINGLE GRID, CODES SELECTED AT SC2]

Male/Female

1. \{hDemOccPnt\} Adults (Grandparents)
2. \{hDemOccGpr\} Adults (Parents/Step-parents/Carers)
3. \{hDemOccAch\} Adult Children (18+)
4. \{hDemOccTee\} Teenagers (12-14)
5. \{hDemOccOch\} Older children (8-11)
6. \{hDemOccYch\} Young children (3-7)
7. \{hDemOccBab\} Babies & Toddlers (0-2)
8. \{hDemOccAot\} Other adults (18+)
Sc1. {hDemOccDep} (P) [ASK ALL] What ages are the children you have parental responsibility for in your household?

[MULTI RESPONSE, SHOW CHILD AGES SELECTED AT Sc2]

1. Under 7 [CLOSE IF ONLY THIS CODED]
2. 7
3. 8
4. 9
5. 10
6. 11
7. 12
8. 13
9. 14
10. 15
11. 16
12. 17
13. I do not have parental responsibility of any children in my household [CLOSE]

Q102. {cDemAge} (P) [FOR ROUTING] Age of child

1. your 7 year old
2. your 8 year old
3. your 9 year old
4. your 10 year old
5. your 11 year old
6. your 12 year old
7. your 13 year old
8. your 14 year old
9. your 15 year old
10. your 16 year old
11. your 17 year old
12. None of These Classifications Apply

Statement1 - In this survey, we would like to ask you about managing money, your approach and understanding. In the middle of the survey, we would also like to ask your [INSERT CHILD AGE] year old a series of questions about their approach to money and knowledge of financial terms. The section of questions for your child to answer will be clearly labelled so that you know when it is time for them to answer. Please select continue if you and your child are happy to proceed.
S1. {rDemRltChi} (P) [ASK ALL] What is your relationship to the child participating in the survey?

[SINGLE RESPONSE]

1. Mother [CODE TO S7/2]
2. Father [CODE TO S7/1]
3. Step-mother [CODE TO S7/2]
4. Step-father [CODE TO S7/1]
5. Grandmother [CODE TO S7/2]
6. Grandfather [CODE TO S7/1]
7. Aunt [CODE TO S7/2]
8. Uncle [CODE TO S7/1]
9. Other relative
10. Carer/guardian
11. Refused [CLOSE]

S7. {rDemGen} (P) [ASK OTHER RELATIVES AND CARER/GUARDIAN, CODES 9 AND 10 AT S1] Are you...?

[SINGLE RESPONSE]

1. Male
2. Female
3. Prefer not to say [CLOSE]

Name.1 Please enter the name of [pipe: Q102] who will be participating so that we can personalise this survey for you:

[OPEN RESPONSE]

1. Name provided
2. Prefer not to say

N1. {rRelChiCrs} (P) [ASK ALL] Thinking about caring and parenting responsibility for [pipe: NAME/your x year old], are you:

[MULTI RESPONSE]

1. Solely responsible (SC)
2. Jointly responsible with another adult living with you
3. Jointly responsible with another adult not living with you
4. Not responsible for these (SC) [CLOSE]
N2. (rRelChiRul) (PP) [ASK ALL] Thinking in particular about setting rules and agreements for [pipe: NAME/your x year old] are you:
[MULTI RESPONSE]

1. Solely responsible (SC)
2. Jointly responsible with another adult living with you
3. Jointly responsible with another adult not living with you
4. Not responsible for this – someone else does this (SC)
5. Not responsible - no one does this (SC)

S2. (cDemGen) (PP) [ASK ALL] Is this child...?
[SINGLE RESPONSE]

1. Male
2. Female
3. Prefer not to say [CLOSE]

S6. (rDemAge) (P) [ASK ALL] How old are you?
[NUMERIC]

1. Type in
2. Prefer not to say [SHOW BANDING]

S6a. (rDemAgeInt) (P) [ASK IF PREFER NOT TO SAY AGE, CODE 2 AT S6] Which of the following age bands are you in?
[SINGLE RESPONSE]

1. Under 18 [CLOSE]
2. 18-24
3. 25-29
4. 30-34
5. 35-39
6. 40-44
7. 45-49
8. 50-54
9. 55-59
10. 60-64
11. 65-69
12. 70-74
13. 75-79
14. 80-84
15. 85+
16. Prefer not to say [CLOSE]
S8. (rDemMar) (P) [ASK ALL] Which of these best applies to you personally? [SINGLE RESPONSE]
1. Married / Living with partner
2. Single (never married)
3. Widowed
4. Separated
5. Divorced
6. Don’t know
7. Prefer not to say

S11. (rDemFrS) (P) [ASK ALL] Thinking about financial decisions in your household are you? [SINGLE RESPONSE]
1. Solely responsible
2. Mainly responsible
3. Jointly responsible
4. No responsibility
5. Not Applicable

Statement2. Please answer the next few questions thinking about [pipe: NAME/your x year old]...

PP4. (rcMonStr) (PP) [ASK ALL] Does [pipe: NAME/your x year old] have money in any of the following places? [MULTI RESPONSE]
1. No – [he/she] doesn’t have any money of [his/her] own (SC)
2. In a piggy bank or cash box at home
3. In a savings account in [his/her] name
4. In a Child Trust Fund in [his/her] name
5. In a current account in [his/her] name
6. In a credit union account in [his/her] name
7. In a NS&I Savings or Premium Bonds in [his/her] name
8. In a junior ISA in [his/her] name
9. In a banking product in parents’ or someone else’s name
10. [Parents/carers] look after [his/her] money
11. Don’t know (SC)
To what extent was [pipe: NAME/your x year old] involved in the choice of banking products in [his/her] name?
[SINGLE RESPONSE]

1. Parents or carers decided
2. [He/she] decided
3. We decided together
4. Don’t know

In which of the following ways does [pipe: NAME/your x year old] get money of [his/her] own?
[MULTI RESPONSE]

1. [He/she] doesn’t get any money of [his/her] own (SC)
2. Pocket money or allowance from parent/carer
3. Pocket money or allowance from another family member e.g. grandparents
4. In return for good behaviour from parent/carer
5. In return for helping out at home/chores from parent/carer
6. Now and again on special days out or holidays
7. Birthdays, Christmas or special occasions
8. When [he/she] sees Grandparents or other family friends or relatives
9. Irregularly or when we have some money to spare
10. [Q102 7 TO 11] From work or a part time job such as delivering papers [parents of 13+]
11. Through selling things online or somewhere else using an adults account
12. [Q102 10 TO 11] Benefits payments [parents of 16+]
13. Other (please specify)
14. Don’t know (SC)

Does [pipe: NAME/your x year old] have [his/her] own mobile/smart phone?
[SINGLE RESPONSE]

1. Yes
2. No
3. Don’t know

Is [pipe: NAME/your x year old] responsible for paying for [his/her] phone bill?
[SINGLE RESPONSE]

1. Yes, [he/she] pays it all
2. Yes, [he/she] pays some or if [he/she] goes above a capped amount
3. No - it’s all free or someone else pays
PP11. {rcMonSpdDcnMob} (PP) [ASK PARENTS OF CHILD WHO OWNS A SMARTPHONE, CODE 1 AT PP10] To what extent was [pipe: NAME/your x year old] involved in the process of choosing the cost of [his/her] call and data package?
[SINGLE RESPONSE]
1. Parents or carers decided
2. [He/She] decided
3. We decided together
4. Don't know

PP13. {rcMonSpdDcn} (PP) [ASK ALL EXCEPT PARENTS OF CHILDREN WITHOUT ANY MONEY OF THEIR OWN AND PARENTS OF CHILDREN WHO DO NOT GET ANY MONEY OF THEIR OWN, CODE 1 AT PP4 AND CODE 1 AT PP5] Who is mainly responsible for deciding how [pipe: NAME]'s day-to-day money is spent?
[SINGLE RESPONSE]
1. Parents or carers decided
2. [He/She] decided
3. We decided together
4. Don't know

PP19. {rcFcmBnk} (PP) [IF SAVE MONEY IN SAVINGS ACCOUNT/CHILD TRUST FUND/CURRENT ACCOUNT/CREDIT UNION ACCOUNT/ PREMIUM BONDS/JUNIOR ISA, CODE 3 TO 8 AT PP4] Which of the following does [pipe: NAME] do with [pipe: N57] bank account(s)?
[MULTI RESPONSE]
1. Nothing (SC)
2. Puts [his/her] money in
3. Takes [his/her] money out
4. Looks after [his/her] bank book details
5. Checks [his/her] bank balance
6. Uses [his/her] debit card
7. Looks at [his/her] account online (internet banking)
8. Looks at [his/her] account on a mobile phone (mobile banking)
9. Goes into the bank
10. Don't know (SC)

ADULTYP7. (PP) [ASK PARENTS OF 11+, CODE 5 TO 11 AT Q102] Does [pipe: NAME/your x year old] pay for any of the following things out of [his/her] own money? (parents of 11+)
[SINGLE RESPONSE PER ROW]
ADULTYP7a. {rcMonSpnClt} [ASK PARENTS OF 11+, CODE 5 TO 11 AT Q102] Non-school clothes and shoes
1. No – their parents pay for this for them
2. Yes – they sometimes pay for this from their own money
3. Yes – they pay for this from their own money

ADULTYP7b. {rcMonSpnTlt} (PP) [ASK PARENTS OF 11+, CODE 5 TO 11 AT Q102] **Toiletries & cosmetics**

1. No – their parents pay for this for them

PP22a. {rcFcmPayOnlAgr} (PP) [ASK PARENTS OF CHILDREN WHO PAY FOR THINGS ONLINE WITH THEIR OWN MONEY OR PARENTS MONEY, CODE 1 AT PP20b] Stick to any agreements that you have about buying online
   1. Yes
   2. No
3. Don't know
4. Not applicable

PP22b. {rcFcmPayOnlUns} (PP) [ASK PARENTS OF CHILDREN WHO PAY FOR THINGS ONLINE WITH THEIR OWN MONEY OR PARENTS MONEY, CODE 1 AT PP20b] Pay online without adult supervision

1. Yes
2. No
3. Don’t know

PP22c. {rcMonSpnOnl} (PP) [ASK PARENTS OF CHILDREN WHO PAY FOR THINGS ONLINE WITH THEIR OWN MONEY OR PARENTS MONEY, CODE 1 AT PP20b] Use [his/her] own money or online account

1. Yes
2. No
3. Don’t know

NQ98. {rcMonSpnPln} (PP) [ASK ALL] Imagine you gave [pipe: NAME/your x year old] £5 to spend on a school trip, would [he/she] make a plan in advance of how much to spend on different things like sweets or presents?
[SINGLE RESPONSE]

1. Yes - [he/she] can make a plan and stick to it
2. Yes - [he/she] would make a plan but would be unlikely to stick to it
3. No - [he/she] wouldn’t be able to plan
4. Don’t know

PP17. {rcMonSavFrqLtr} (PP) [ASK ALL EXCEPT BOTH PARENTS OF CHILDREN WITHOUT ANY MONEY OF THEIR OWN AND PARENTS OF CHILDREN WHO DO NOT GET ANY MONEY OF THEIR OWN, CODE 1 AT PP4 AND CODE 1 AT PP5] How often does [pipe: NAME/your x year old] save up [his/her] own money to buy a specific item?
[SINGLE RESPONSE]

1. Often
2. Sometimes
3. Rarely
4. Never
5. Don’t know
PP24. (PP) [ASK ALL] How well do you think [pipe: NAME/your x year old] understands the following about money?
[SINGLE RESPONSE PER ROW RANDOMISED]
PP24a. {rcFcmUndVal} (PP) That money has a value

1. Not at all well
2. Not very well
3. Quite well
4. Very well
5. Don't know

PP24b. {rcFcmUndSrc} (PP) Where day-to-day money comes from

1. Not at all well
2. Not very well
3. Quite well
4. Very well
5. Don't know

21. Don't know (FIXED)

Statement 3. [SHOW ALL] The next few questions are about your attitudes, opinions and behaviours towards money. Please select continue to proceed.

P1. {rfstHthSat} (P) [ASK ALL] On a scale of 0 to 10, where 0 is ‘not at all satisfied’ and 10 is ‘completely satisfied’, how satisfied are you with your overall financial circumstances? [SINGLE RESPONSE]
1. 0 - Not at all satisfied
2. 1
3. 2
4. 3
5. 4
6. 5
7. 6
8. 7
9. 8
10. 9
11. 10 – Completely satisfied

P2. \{rFstHthCfd\} (P) [ASK ALL] On a scale of 0 to 10, where 0 is ‘not at all confident’ and 10 is ‘very confident’, how confident do you feel managing your money?
[SINGLE RESPONSE]

1. 0 - Not at all confident
2. 1
3. 2
4. 3
5. 4
6. 5
7. 6
8. 7
9. 8
10. 9
11. 10 – Very confident

P3. \{rEduCfd\} (P) [ASK ALL] And on a scale of 0 to 10, where 0 is ‘not at all confident’ and 10 is ‘very confident’, how confident do you feel talking to your [child/children] about how to manage money?
[SINGLE RESPONSE]

1. 0 - Not at all confident
2. 1
3. 2
4. 3
5. 4
6. 5
7. 6
8. 7
9. 8
10. 9
11. 10 – Very confident
P5. \( \text{rFstPayBllDif} \) (P) [ASK ALL] To what extent do you feel that keeping up with your bills and credit commitments is a burden?
[SINGLE RESPONSE]
1. It is not a burden at all
2. It is somewhat of a burden
3. It is a heavy burden
4. Don't know

P6. \( \text{rFstPayMis} \) (P) [ASK ALL] In the last 6 months, have you fallen behind on, or missed, any payments for credit commitments or domestic bills for any 3 or more months? These 3 months don't necessarily have to be consecutive months.
[SINGLE RESPONSE]
1. Yes
2. No
3. Don't know

P7. \( \text{rMonSavFrq} \) (P) [ASK ALL] Which of these best describes how often you put money aside into savings?
[SINGLE RESPONSE]
1. Rarely/never
2. Some months, but not others
3. Most months
4. Every month
5. Don't know

NQ96. \( \text{rFstPayBllUnx} \) (P) [ASK ALL] Thinking about an unexpected bill which [pipe: A3] have to pay within seven days from today. Which, if any of the following would you do to pay a bill of £300? If you think you would do more than one, please select the main thing you would do, that is the one you would get the most money from.
[SINGLE RESPONSE]
1. [I/we] would pay it with [my/our] own money, without dipping into savings or cutting back on essentials
2. [I/we] would pay it with [my/our] own money, without dipping into savings but [I/we] would have to cut back on essentials
3. [I/we] would have to dip into savings
4. [I/we] would use a form of credit or overdraft
5. [I/we] would get the money from friends or family as a gift or loan
6. [I/we] would have to sell personal/household item(s) to get the money
7. [I/we] would not be able to pay this expense
8. Don't know
9. Prefer not to say
YP8. {rFcmMtr} (P) [ASK ALL] How do you keep track of your family income and expenditure? [MULTI RESPONSE]

1. I don’t keep track – another adult in the household does (SC FIXED)
2. I don’t keep track - no-one in the household does (SC FIXED)
3. Online budgeting tool
4. Online bank account
5. Spreadsheet
6. Piece of paper
7. In my head (mentally)
8. Checking my bank balance at a cash machine
9. Reviewing my bank statements
10. On a mobile app
11. Other (FIXED)
12. Don’t know (SC FIXED)

P10. (P) [ASK ALL] To what extent do you agree or disagree with the following statements about money? [SINGLE PER ROW RANDOMISED SCALE ROTATED]

P10a. {rFstHthAnx} (P) [ASK ALL] Thinking about my financial situation makes me anxious

1. Strongly disagree
2. Slightly disagree
3. Neither agree nor disagree
4. Slightly agree
5. Strongly agree

3. I don’t do this
4. Don’t know

PP19h. {FcMtrFs} (C) [ASK THOSE AGED 8 TO 17 AND THOSE WHO HAVE A BANK ACCOUNT, CODES 2 TO 11 AT Q102 AND CODE 1 AT NQ4] Go into the bank

1. I do this
2. My parents do this
3. I don’t do this
4. Don’t know

YP2. {MonStrActyp} (C) [ASK THOSE AGED 8 TO 17 AND THOSE WHO HAVE A BANK ACCOUNT, CODES 2 TO 11 AT Q102 AND CODE 1 AT NQ4] Do you know what type of bank account you have? Is it a... (8+)

[SINGLE RESPONSE]

1. Current account
2. Savings account
3. I have both a current and a savings account
4. I don’t know what type of bank account I have

NQ3y. {MonStrLts} (C) [ASK THOSE AGED 8 TO 17, CODES 1 TO 11 AT Q102] Do you have a Child Trust Fund or a Junior ISA? (7+)

[MULTI RESPONSE]

1. I have a Child Trust Fund
2. I have a Junior ISA
3. I don’t know if I have one of these (SC)
4. I don’t know what these are (SC)

NQ3z. {MonStrLtsAwr} (C) [ASK THOSE WHO DON’T KNOW WHAT A CHILD TRUST FUND OR A JUNIOR ISA IS, CODE 4 AT NQ3y] Which of these don’t you know about?

[MULTI RESPONSE]

1. I don’t know what a Child Trust Fund is
2. I don’t know what a Junior ISA is

CHILDREN AND YOUNG PEOPLE’S FINANCIAL CAPABILITY SURVEY4. {MonStr} (C) [ASK ALL EXCEPT THOSE WHO DON’T GET MONEY, CODE 1 AT CHILDREN AND YOUNG PEOPLE’S FINANCIAL
CAPABILITY SURVEY2 AND ALL WHO HAVE A BANK ACCOUNT, CODE 1 AT NQ4] [Apart from in your bank account(s)] where do you keep your money? [MULTI RESPONSE]

1. Purse or wallet
2. Piggy bank or cash box at home
3. My parent or carer looks after it for me
4. Nowhere in particular (SC)
5. Somewhere else
6. Don't know (SC)

CHILDREN AND YOUNG PEOPLE’S FINANCIAL CAPABILITY SURVEY5. {cFcmMtrAmtAwr} (C) [ASK ALL EXCEPT THOSE WHO DON’T GET MONEY, CODE 1 AT CHILDREN AND YOUNG PEOPLE’S FINANCIAL CAPABILITY SURVEY2] Do you know how much money you have in total? [Including in your bank?] [SINGLE RESPONSE]

1. No
2. Yes, roughly
3. Yes exactly

YP3. {cSavFrq} (C) [ASK THOSE AGED 8 TO 17 AND ALL EXCEPT THOSE WHO DON’T GET MONEY, CODES 2 TO 11 AT Q102 AND CODE 1 AT CHILDREN AND YOUNG PEOPLE’S FINANCIAL CAPABILITY SURVEY2] When you get money, how often do you save at least some of it, [say by putting it in a piggy bank or cash box or into your bank account]? (8+)
[SINGLE RESPONSE]

1. Every time I get money
2. Most times I get money
3. Sometimes
4. Never
5. Don’t know

YP3b. {cSpnFrq} (C) [ASK THOSE AGED 8 TO 17 AND ALL EXCEPT THOSE WHO DON’T GET MONEY, CODES 2 TO 11 AT Q102 AND CODE 1 AT CHILDREN AND YOUNG PEOPLE’S FINANCIAL CAPABILITY SURVEY2] [You said that you save some money every time/most times/some of the time you get money.] How often do you spend that money on things you want? (8+)
[SINGLE RESPONSE]

1. Every time I get money
2. Most times I get money
3. Sometimes
4. Never
5. Don’t know
YP3c. {cSavFrm2} [ASK THOSE AGED 8 TO 17 AND ALL EXCEPT THOSE WHO DON’T GET MONEY, CODES 2 TO 11 AT Q102 AND NOT CODE 1 AT CHILDREN AND YOUNG PEOPLE’S FINANCIAL CAPABILITY SURVEY] How often do you put money aside into your savings? [SINGLE RESPONSE]

1. Every week
2. Every month
3. Most months
4. Some months, but not others
5. Rarely or never
6. Don’t know

CHILDREN AND YOUNG PEOPLE’S FINANCIAL CAPABILITY SURVEY6. {cSavLng}[C] [ASK ALL CHILDREN] What is the longest time you have saved up for? (for example to buy something you wanted) [SINGLE RESPONSE]

1. I haven’t saved up money before
2. Less than a week
3. More than a week but less than month
4. More than a month but less than a year
5. More than a year
6. Don’t know

YP6. {cEduFinPcmPay} (C) [ASK THOSE AGED 7 TO 11, CODES 1 TO 5 AT Q102] Have you seen your parents pay for things with...? (7-11) [MULTI RESPONSE]

1. Money (notes or coins)
2. Debit card
3. Online account (like Paypal)
4. Mobile phone
5. Credit card
6. None of these (SC)
7. Don’t know (SC)

C2. {cQol} (C) [ASK THOSE AGED 7 TO 11, CODES 1 TO 5 AT Q102] Zig is 16, and he is an alien who has come from another planet to live on Earth. He can choose 3 of the items you see below. Can you pick the 3 most important things you think he needs to live here? (7-11) [MULTI RESPONSE – UP TO THREE]

1. A house to live in
2. Electricity
3. Water supply
4. Food
5. New clothes
6. TV
7. Mobile phone
8. Tablet or iPad
9. Books
10. Car
11. Internet access
12. Don’t know (SC)
C3. (cMonSrc) (C) [ASK THOSE AGED 7 TO 11, CODES 1 TO 5 AT Q102] Zig will need more money so he can buy the things he will need to live here. What would be the best way for him to make sure he gets the money he needs to live here? (7-11)
[MULTI RESPONSE – UP TO THREE]
1. Do well at school
2. Get a job
3. Borrow from other people
4. Hope to be given some
5. Go to a cash machine
6. Apply for help from the people in charge
7. Don’t know

C4. (cMonSrcMain) (C) [ASK THOSE WHO CODED MORE THAN 1 AT C3] And what is the best way? (7-11)
[SINGLE RESPONSE]

If I didn’t like a job I’d pack it in even if I didn’t have another one to go into (14+)

1. Strongly disagree
2. Slightly disagree
3. Neither agree nor disagree
4. Slightly agree
5. Strongly agree
6. Don’t know

Imagine you were given £5 to spend on a school trip. Would you plan how to spend the money and then stick to that plan? For example, would you work out how much you want to spend on different things like sweets or presents.

[SINGLE RESPONSE]

1. Yes, I would make a plan and stick to it
2. Yes, I would make a plan but would be unlikely to stick to it
3. No, I wouldn’t make a plan
4. Don’t know

How confident do you feel managing your money? Please answer on a scale of 0-10, where 0 is ‘not at all confident’ and 10 is ‘very confident’ (12+)

[SINGLE RESPONSE]

1. 0 - Not at all confident
2. 1
3. 2
4. 3
5. 4
6. 5
7. 6
8. 7
9. 8
10. 9
11. 10 - Very confident

Imagine someone gives you £10. How much would you spend and how much would you save for later?
[NUMERIC]

Imagine someone gives you £100. How much would you spend and how much would you save for later?
[NUMERIC]

Below are some things people your age have said about borrowing money. Which one best describes how you feel about borrowing money? (12+)
[SINGLE RESPONSE]
1. I’d rather not borrow money
2. Borrowing money is OK; but only if I can pay it back
3. Borrowing money does not bother me at all, even if I can’t afford to pay it back
4. I don’t know (FIXED)

YP99. (C) [ASK THOSE AGED 11 TO 17, CODES 5 TO 15 AT Q102] When you want to buy something for yourself, how often... (11+)
[SINGLE RESPONSE PER ROW]

YP99a. {cDcpFinShp} (C) [ASK THOSE AGED 11 TO 17, CODES 5 TO 15 AT Q102] ... do you look in different places or stores to compare prices?
1. Never
2. Rarely
3. Sometimes
4. Often
5. Don’t know

YP99b. {cDcpFinPpr} (C) [ASK THOSE AGED 11 TO 17, CODES 5 TO 15 AT Q102] ... do you think about whether your friends would approve of the item?
1. Never
2. Rarely
3. Sometimes
4. Often
5. Don’t know

YP99c. {cDcpFinVfm} (C) [ASK THOSE AGED 11 TO 17, CODES 5 TO 15 AT Q102] ... do you think about whether the item is good value for money?
1. Never
2. Rarely
3. Sometimes
4. Often
5. Don’t know

YP13. {cDcpGol} (C) [ASK THOSE AGED 11 TO 17, CODES 5 TO 15 AT Q102] Which, if any, of the following goals would you like to achieve in the next 5 years?
[MULTI RESPONSE]
1. [ASK THOSE AGED 11-17] Nothing, I have no goals for the next 5 years (SC) (11+)
2. [ASK THOSE AGED 11-17] Get into university (11+)
3. [ASK THOSE AGED 11-17] Go travelling (11+)
4. [ASK THOSE AGED 11-17] Get a secure job when I leave education (11+)
5. [ASK THOSE AGED 11-17] Move out of parents’ home (11+)
6. [ASK THOSE AGED 11-17] Get my own car (11+)

4. They don’t have a mobile phone
Thank you for taking part in this survey. Can you please now hand this survey over to [INSERT CHILD’S NAME]. Or alternatively you can save the survey here and continue at another time but please note you will not be able to go back through your answers.
Thank you for agreeing to take part in this follow-up survey about you and your money for the Money Advice Service (MAS).

Your responses are very important in helping the Service understand more about the lives and finances of people like you.

Your part of this survey is around 15 minutes long and we think that you will find it quite interesting.

Please be honest with your answers, all responses are completely confidential and will be anonymised by BMG Research, so no one will ever be able to identify you. BMG Research are partners of the Market Research Society and abide by their rules.

If you have any further questions, you can always contact us at mas2017@bmgresearch.co.uk – but for now, please enjoy the survey.
YOUR CIRCUMSTANCES

9. About the same as this time {last year OR two years ago}
10. A little less often than this time {last year OR two years ago}
11. Much less often than this time {last year OR two years ago}
12. Don’t know

Which of the following best describes how [INSERT CHILD NAME]'s saving has changed since {INSERT MONTH & YEAR}? [He/She] is saving...

[SINGLE RESPONSE]

7. Much more often than this time {last year OR two years ago}
8. A little more often than this time {last year OR two years ago}
9. About the same as this time {last year OR two years ago}
10. A little less often than this time {last year OR two years ago}
11. Much less often than this time {last year OR two years ago}
12. Don’t know

Are you talking to [INSERT CHILD NAME] about [his/her] finances more, less or about the same than in {INSERT MONTH & YEAR}?

7. Much more
8. A little more
9. About the same
10. Much less
11. A little less
12. Don’t know

Does [INSERT CHILD NAME] have any bank accounts of [his/her] own that were opened in [his/her] name within the last {year OR two years}? i.e. since {INSERT MONTH & YEAR}?

(If they have opened a credit union or building society account in the last year you should answer yes to this question)

[SINGLE RESPONSE]

4. Yes – [INSERT CHILD NAME] has opened a bank account within the last {year OR two years}
5. No – [INSERT CHILD NAME] has not opened a bank account within the last {year OR two years}
6. I don’t know/can’t remember
To what extent was [pipe: NAME] involved in the choice of banking products in [his/her] name?

[SINGLE RESPONSE]

5. Parents or carers decided
6. [He/she] decided
7. We decided together
8. Don't know/can’t remember

On a scale of 0 to 10, where 0 means ‘it doesn’t sound like me at all’, and 10 means ‘it sounds a lot like me’, to what extent would you say I set clear rules or agreements for [this child] about money that I stick to

1. 0 - It doesn't sound like me at all
2. 1
3. 2
4. 3
5. 4
6. 5
7. 6
8. 7
9. 8
10. 9
11. 10 - It sounds a lot like me

Compared to others of [his/her] age, do you think that [INSERT CHILD NAME] is more prepared or less prepared for financial independence? That is managing their money on their own in a way that doesn’t require support from their parents/carers/family members.

[SINGLE RESPONSE]

11. Much more prepared
12. More prepared
13. About the same level
14. Less prepared
15. Much less prepared

And finally...
PP10b. {rcMonSpdMob} [ASK ALL] (PP) Is [INSERT CHILD NAME] responsible for paying for [his/her] mobile phone bill?

[SINGLE RESPONSE]

5. Yes, [he/she] pays it all
6. Yes, [he/she] pays some or if [he/she] goes above a capped amount
7. No - it's all free or someone else pays
8. They don’t have a mobile phone

Thank you for taking part in this survey. Can you please now hand this survey over to [INSERT CHILD’S NAME]. Or alternatively you can save the survey here and continue at another time but please note you will not be able to go back through your answers.
Thank you for agreeing to take part in this follow-up survey about you and your money for the Money Advice Service (MAS).

Your responses are very important in helping the Service understand more about the lives and finances of people like you.

Your part of this survey is around 15 minutes long and we think that you will find it quite interesting.

Please be honest with your answers, all responses are completely confidential and will be anonymised by BMG Research, so no one will ever be able to identify you. BMG Research are partners of the Market Research Society and abide by their rules.

If you have any further questions, you can always contact us at mas2018@bmgresearch.co.uk – but for now, please enjoy the survey.
YOUR CIRCUMSTANCES
